### The Farmers' Educational and Co-operative Union of America.

Speculators and those engaged in the distribution of farm products have organized and operate to the great detriment of the farming class.

To enable farmers to meet these conditions and protect their interest, we have organized The Farmers' Educational and Co-operative Union of America, and declare the following purposes:

"To establish justice.  
"To secure equity.  
"To apply 'The Golden Rule.'  
"To discourage the credit and mortgage system.

"To assist our members in buying and selling.

"To educate the agricultural class in scientific farming, economy in the classification of crops, domestic economy, and the process of marketing.

"To systematize methods of production and distribution.

"To eliminate gambling in farm products by boards of trade, cotton exchanges and process of marketing.

"To bring farmers up to the standard of other industries and business enterprises.

"To secure and maintain profitable and uniform prices for grain, cotton, live stock and other products of the farm.

"To strive for harmony and good will among all mankind and brotherly love among ourselves.

"To garner the tears of the distressed, the blood of the martyrs, the laugh of innocent childhood, the sweat of honest labor and the virtue of a happy home as the brightest jewels known."

Because the depressed and debt ridden condition of the tillers of the soil and toilers is caused neither by laziness, improvidence nor failure of crops, and can only be relieved by concerted effort.

We ask you to join us because we are a chartered organization, and our charter is recorded in the State. We started this organization on August 28, 1902. The purpose for which it is formed is to organize and charter subordinate unions at various places in Texas and the United States, to assist in marketing and obtaining better prices for their products, for fraternal purposes and to co-operate with them in the protection of their interest; to initiate members and to collect a fee therefor.

At that time cotton was worth 6 or 7 cents a pound, and by our plan we sold all we had above 10 cents a pound.

For the last two years our minimum price for cotton has been eleven cents a pound, and we hope to maintain and get a better price for this 1907 crop.

Over a million and a half in the cotton states, and fifteen thousand in South Carolina ask you to join in with them and help to control the cotton by not selling the cotton too fast.

If you can help organize, get your local union to endorse you, and if you have no union in your neighborhood, get fifteen good farmers to join in with you.

We will send you instructions how to organize, and our plan of marketing.

Any kindness shown our organizer will be appreciated by us. "But," you say, "they won't stick together." Ah, is there where the trouble is with you? We say we have already "stuck" and raised cotton to a profitable price. Now can you stick with us? We will try you. Come in.

Every branch of labor, as well as capitol, are now successfully organized for business purposes—all but the man who needs it most—the farmer.

Do you know it is cowardly to say, "I can't," "they won't," "It's no use," when you see the need of it, and even admit it? Don't you know that the world moves by inches; that every generation improves upon the past; that every man's invention is improved and perfected by some other man? The organizations which have passed have done good, have given away to better ones. Of course you know all this and we appeal to your intelligence and to your love of home and country to assist us in this great battle for the rights of the great producing class of our citizens.

I will meet the farmers at any school house or place of meeting they may designate and give you all the information that I can concerning this the greatest of farmers organizations today. I ask you in the interest of the toiling masses to come together for your own, and most of all, the protection of your wives and children. Give me a few days notice and I will be with you at your meeting to give you what information I can, and if you then feel that it is your duty to join in with your brother farmers for your own protection, I will be ready

to organize you a local union at your place and place you in possession of all the workings of the order. Any further information wanted address me at Peak, S. C. Brother farmers let me hear from you.

JAMES B. ADDY,  
County Organizer.

### The Country Home.

When a town fellow visits a country home and they set him down to a table laden with hickory wood smoked ham as sweet as nectar, fried eggs fresh from the chicken factory, home made bread, butter churned before breakfast, milk and cream that never saw chalk or water, with a score of sweetmeats, pastries and fruits, and then apologise to him for not having something to eat, he can not help but wonder what they do have when they are expecting company.—Farm and Factory.

### Women as Physicians.

In the entire list of admission to practice at the bar just made public there is not one woman among the more than 150 new attorneys. Of the ninety-two doctors of medicine passed by the state board of registration ten are women.

The alignment of the sexes in the profession seems to be turning in the direction of natural aptitude and sympathetic development. The practice of law is not congenial for women unless in exceptional cases. Few have the temperament and the disposition to find in it happiness or achieve success.

On the other hand the healing art offers to women a career in which their natural intuition and their delicate perceptions constitute invaluable aids to science.—Boston Post.

### Men Past Sixty in Danger

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 81 years old." Derrick's Drug Store.

### Broke Man's Neck

#### Pulling His Teeth.

Chicago, Aug. 21.—Geo. Davis, 38 years of age, died at the county hospital last night, of what was diagnosed by the physicians as a broken neck, probably caused by a dentist's efforts to pull a tooth.

Davis came to the hospital a week ago, complaining of a pain in his neck. He told the physicians at the hospital that he had gone to a dentist to have a tooth extracted. The tooth was difficult to extract, and Davis said that the dentist had jerked him severely.

It is believed by the physicians that the dentist dislocated a portion of the spinal column.

### Eczema.

For the good of those suffering with eczema or other such trouble, I wish to say, my wife had something of that kind and after using the doctors' remedies for some time concluded to try Chamberlain's Salve, and it proved to be better than anything she had tried. For sale by the Kaufmann Drug Co.

Mr. Knox—Yes, and on Monday, Tuesday, Wednesday, Thursday, Friday and Saturday, too.—York Dispatch.

### Fortune Teller's Prediction Kept Hands from Work.

Wakefield, Mass., Aug. 21.—One hundred of the 600 operatives in the knitting mills of Winslow, Boite & Co., refused to go to work today because of the prediction of a fortune teller that the mills will be blown up today. The fortune teller said there are cracks in the boiler and that an explosion some time today will kill or injure 500 persons. The operatives on hearing the prediction petitioned the owners of the mills to close them for the day and have the boiler inspected. The proprietors refused and fully one-sixth of the hands risked discharge and refused to go to work.

Trumba, Conn., Aug. 22.—In a fit of jealousy, because he thought she was going to marry another man, Lucas Koplinsky, at Tashua Hill, shot and killed Miss Lillian Mallett today, and to hide his crime, set fire to the shed in which he had slain the woman.

Miss Mallett was 55 years of age and wealthy. Koplinsky had worked on the Mallett place for seven years. A neighbor who heard the shooting raised an alarm and Koplinsky was captured.

M. T. Lynch, Editor of the Phillipsburg, N. J., Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." Derrick's Drug Store.

### Three Burned to Death.

Rochester, Ind., Aug. 22.—While kindling a fire in the stove at their farm house, near Montone, today, Mrs. Charles Webster's clothes caught fire. She ran into the bed-room where her husband and two-year-old baby girl were sleeping, and all three were burned to death.

You have to spend an awful lot of money that you can't afford to make people believe you can.

A nice thing about dishonest ancestors is how respectable you can be on the money they stole.

It relieves the pain and inflammation. It is for any form of piles. Price 50c. Sold by Kaufmann Drug Co.
